Dear Master

On behalf of City, University of London, I am delighted to thank the Worshipful Company of Coachmakers for the recent donation £15,000 to support the Covid-19 Emergency Fund.

This fund has been set up to support students who are financially struggling or facing hardship as a direct result of Coronavirus. There has already been an overwhelming amount of applications for this funding and we are very grateful for this additional support to help even more students. We will provide an update to the Committee later in year to show the real impact that this donation has made.

Thank you once again for the continued support to the University and our students.

Yours sincerely,

Kelly Rush  
Donor Relations Officer
